#### DEVELOPER / ANALYST / PROJECT MANAGER

 SALTo

 HELMo - Rue de Harlez 25, 4000 Liège

 Sept. 2024 - current

 Visit [salto.helmo.be](https://salto.helmo.be) for more information.

Currently building my professional experience as a developer with SALTo, a program within my school where students collaborate on real projects for actual clients.

- Contributed to real-world software projects for local organizations, developing web applications using technologies such as Laravel, Blade, SQL, Docker, GitLab...
- Acted as Developer, Analyst, and Project Manager, participating in all stages of the software development lifecycle, from requirement analysis to delivery and maintenance.
- Collaborated with teammates to plan tasks, manage timelines, and ensure project quality through agile methodologies, using Atlassian tools such as Confluence and Jira.
